

SmithRx Essential Formulary

Understanding the costs of your prescriptions

Welcome to the SmithRx Essential Formulary. The Essential Formulary is a list of drugs that your doctor may prescribe for you and includes information related to the coverage and cost of these drugs. This list may change over time, so please refer to plan documents for detailed information about your drug benefit coverage.

The drugs included on the Essential Formulary are organized by categories depending on the type of medical conditions that they are used to treat. Medications are listed as Tier 1 - Generic, Tier 2 - Preferred Brand, Tier 3 - Non-Preferred Brand, Tier 4 - Preferred Specialty, Tier 5 - Specialty. Medications listed as "Specialty Drugs" are used to treat complex medical conditions that require special handling, administration, and member care management. Please refer to your plan document for detailed information about your tiers and copay structures.

Our Pharmacy and Therapeutics Committee (P&T) and Value Assessment Committee (VAC) reviews clinical data, peer reviewed literature and guidelines to determine a drug's safety and efficacy. Thereafter, the committee weighs the financial implications of a drug compared to other similar drugs and selects appropriate tier placement based on the drugs' safety, efficacy and cost-effectiveness. Please note all drugs on the SmithRx Essential Formulary are subject to periodic review and amendment.

The formulary does not guarantee coverage. Coverage varies by plan design; please refer to your plan documents that you receive from your employer.

If you have any questions about the SmithRx Essential Formulary or your drug coverage, you can reach our customer service team at (844) 454-5201 as of 1/1/2024.

If you have questions prior to 1/1/2024, contact your benefits consultant:
