

# Dental@Work is your on-site dental solution

To make dental care more convenient for your employees, we've partnered with Jet Dental to bring professional dental care directly to your workplace at no additional cost.<sup>1</sup> These on-site pop-up dental stations, staffed with dental hygienists and licensed dentists, allow your employees to receive these comprehensive services:

- Routine cleanings
- Scaling and root planing
- Exams
- X-rays
- Fillings
- Teeth whitening
- Orthodontic scans for employees interested in clear aligners

## Why bring dental care to work?

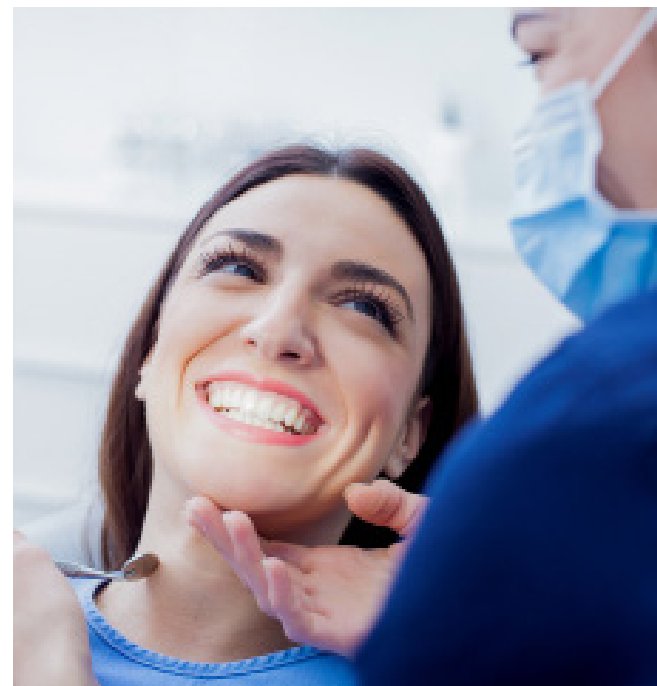

Every year in the U.S., over 320 million work and school hours are lost due to dental visits.<sup>2</sup> Dentist appointments are the second most common reason employees leave work early.<sup>2</sup> By bringing dental care directly to your workplace, you can minimize your employees' time away from work, which can improve productivity.

## How it works:

1. Fill out and submit the form on the back of this page. Jet Dental will contact you to schedule a call to discuss the program details and pick dates that work best for your company.
2. Employees will schedule appointments online through Jet Dental's online scheduling tool.
3. Jet Dental will arrive and set up dental stations at your location and provide services.
4. Jet Dental will file dental claims for your employees. Please note that Jet Dental does not work with Medicare or Medicaid.
5. Jet Dental will then work with you to schedule your company's follow-up event.

## What is required

Jet Dental can accommodate different setups. The ideal space for this event is a 30-by-30-foot room with electrical outlets and Wi-Fi access, but multiple smaller rooms can be used too. Jet Dental typically requires a minimum of 25 appointments to hold an event and can see up to 50 appointments in one day.
