

HOW TO FIND AN OUT OF STATE BLUE SHIELD PROVIDER

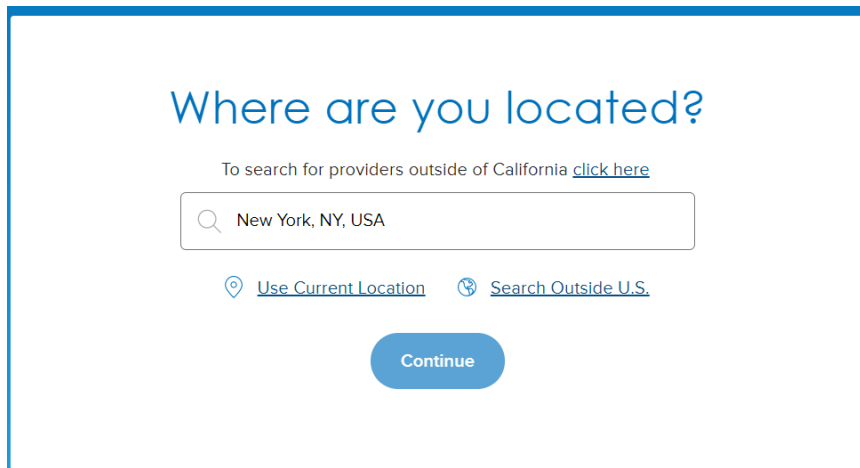

1. Visit the Blue Shield website, and click Find a Doctor: <https://www.blueshieldca.com>

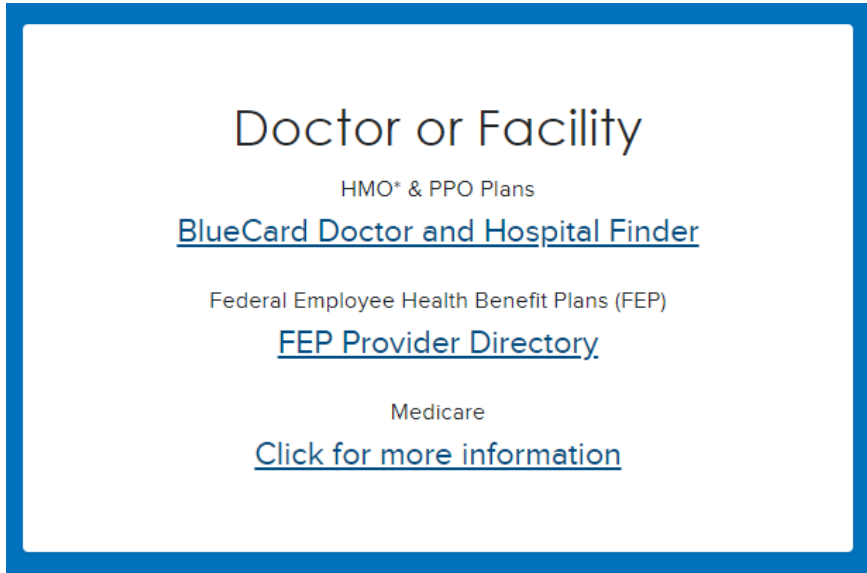

2. Next click doctors. You have the option to log in as a Blue Shield member, but the instructions below outline the process after clicking No:

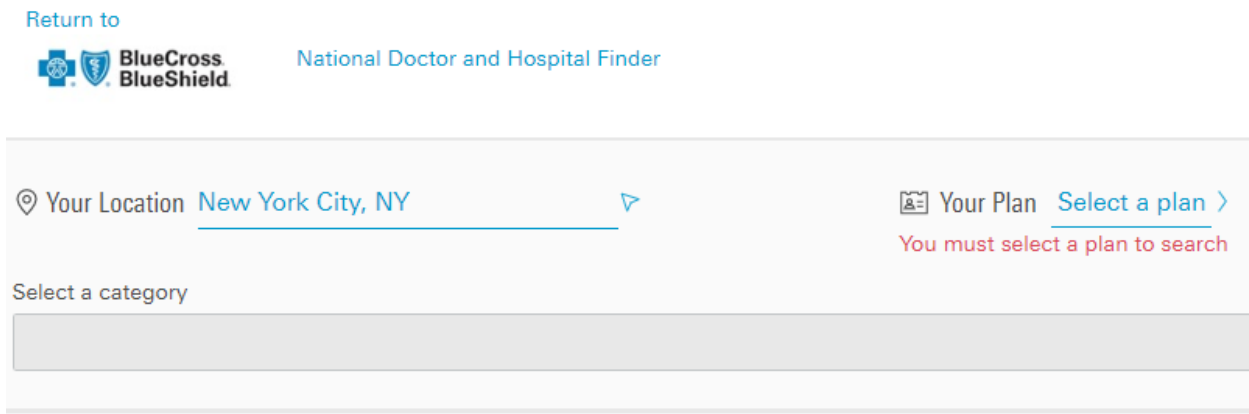

3. Enter your city, state and click Search for Providers Outside of California:

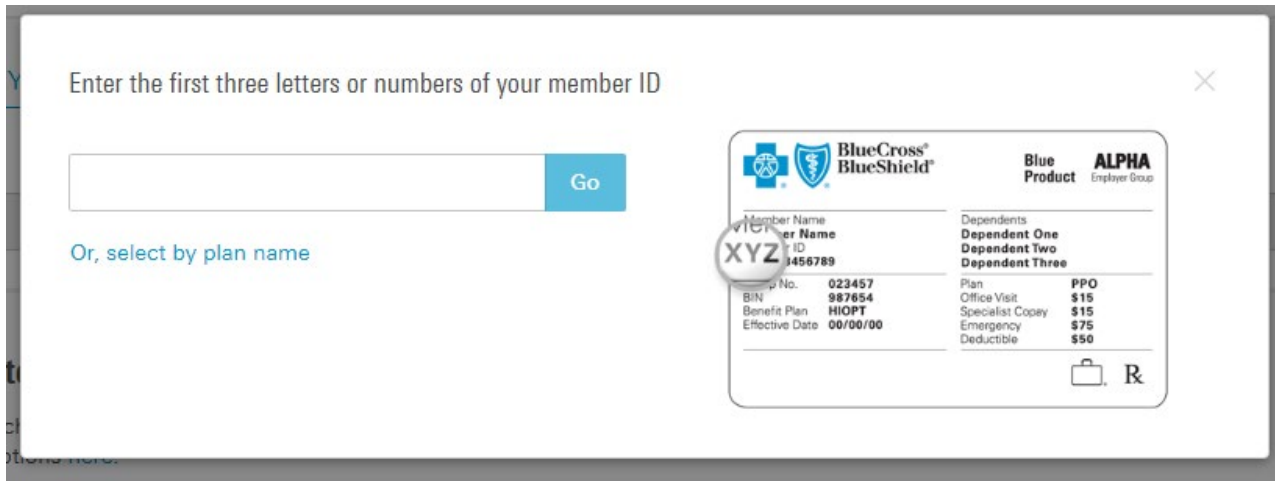

4. Next click BlueCard Doctor and Hospital Finder:

5. Next click Select a Plan:

6. Next enter XEA and click Go:

7. You will now be able to search for In Network BlueCard providers and facilities by name and specialty.

National Doctor and Hospital Finder

📍 Your Location New York City, NY   Your Plan Prefix: XEA 

Select a category

Search all	^	Type a name or phrase to find doctors, hospitals and more
Search all		Type a name or phrase to find doctors, hospitals and more
Doctors by name		Type a last name to learn if a doctor is in your network
Doctors by specialty		Search by body part or specialty name for in-network doctors
Places by name		Enter a place's name to find out if it is in your network
Places by type		Type a term like "hospital" or "lab" for in-network places

****Even if providers are on this list, confirm with your provider *prior to your appointment* that they are still contracted. If there is any discrepancy, email Sara Packard at sara@filice.com and she will work with the Provider Relations group at Blue Shield to update the list, as providers may not be on top of communicating their updated status.****
