Choose a top-flight hospital for your hospital stay

On the Health Net website, we connect you to information about how well hospitals perform on key areas of care.

We link to *Cal Hospital Compare* where you can find out how hospitals perform on:

- Patient safety practices and complication rates
- Maternity care outcomes
- Experience levels with specific procedures
- How other patients rated their experience of care. For example, whether they would recommend the hospital to family or friends.

Hospitals that perform well enough on certain areas of care can earn a place on one of Cal Hospital Compare's annual Honor Rolls. Look under *Programs* to find the Maternity Care, Patient Safety, and Opioid Care Honor Rolls. Honor Roll hospitals will also include an Honor Roll symbol when you click on their profile. See if there are hospitals in your area that have been named to one or more of these lists. Be sure to check which hospitals are covered for your specific plan.
