Kaiser Permanente 2024 sample fee list¹

What's a sample fee list?

A sample fee list can help you understand your health care costs by showing the estimated amount you may pay for certain services.² Keep in mind that this list doesn't include costs for hospital services, and the amount you're ultimately charged may vary based on the care you receive, the type of facility you visit, your plan details, and whether you've reached your deductible.

How can I use the list?

The sample fee list can help you:

- Choose the right Kaiser Permanente deductible HMO plan during open enrollment
- Estimate what you'll pay for services before you reach your deductible
- Identify preventive care services, most of which are covered at no cost (visit **kp.org/prevention** for a full list)
- Estimate how much to contribute to a flexible spending account (FSA) or health savings account (HSA) connected to your plan, based on the care you expect to receive

What happens after I reach my deductible?

You typically pay the full charge for covered services until you reach a set amount known as a deductible. Then you'll start paying less – a copay or a percentage of the charges (called a coinsurance) for the rest of the year. (Depending on your plan, you may pay copays or coinsurance for some services without having to reach your deductible.)

This means that for some services, you may pay less than the estimated fees shown on the sample fee list after you reach your deductible. Here are some examples:

Service	Estimated fees	What you pay before reaching deductible	What you pay after reaching deductible
X-ray of both knees	\$110	Full charges: \$110	Copay or coinsurance (e.g., \$10 or 20% of estimated fee)
Ultrasound of pelvis	\$290	Full charges: \$290	Copay or coinsurance (e.g., \$20 or 30% of estimated fee)
Stress test	\$244	Full charges: \$244	Copay or coinsurance (e.g., \$25 or 40% of estimated fee)

Have questions?

If you want more information or have questions about a service that's not listed, please call the number on your Kaiser Permanente ID card.

Get a cost estimate

If you're a member, it's easy to get a sense of costs before you get care. Visit **kp.org/costestimates** to get a personalized estimate based on your plan benefits.

^{1.} The estimated fees in this sample fee list are valid as of January 1, 2024, and may change without notice. This sample fee list only applies to members who get medical services from Kaiser Permanente facilities. 2. Professional services are usually received at a medical office, including doctor's office visits, lab tests, and X-rays. They may also include physician-related services provided in a hospital.

The amount you're actually charged may be different depending on the care you get, the type of facility you visit, your plan details, and whether you've reached your deductible.

If your health benefits are self-insured by your employer, union, or Plan sponsor, Kaiser Permanente Insurance Company provides certain administrative services for the Plan and is not an insurer of the Plan or financially liable for health care benefits under the Plan.
