

KEEP YOUR EYES PEELED FOR VALUABLE COVERAGE AND SAVINGS.

Make the most of your Cigna Vision plan.

With your Cigna Vision plan, you and your covered family members have convenient access to quality vision care, including coverage for routine eye exams and, in many cases, glasses and/or contact lenses. We're here to help you make the most of it all.

Get your routine eye exam.

Your routine eye exam is one of the easiest ways to help catch health issues – such as glaucoma, cataracts and age-related macular degeneration – before they become more serious and costly.

Quick tip: It's important to get your eyes dilated during your exam. This can help spot certain eye diseases, including the early stages of diabetes.

Schedule your children's eye exams too.

Children may get a vision test at school or at their pediatrician's office, but these exams might not catch a serious eye disorder. That's why it's important to have your child visit an eye doctor, such as an optometrist or ophthalmologist. These specialists can help check your child's vision and eye health.

Did you know? One in four children has a vision problem that can affect their learning.*

Cigna offers one of the largest specialty networks of optometrists, ophthalmologists and nationally recognized eye care retailers.**

Stay in-network.

You'll save the most money if you pick an eye doctor from Cigna Vision's large network. And you'll have lots of choices.

Keep in mind: If you choose a doctor who's not in the network, you'll have to pay the total amount due at your appointment. To get reimbursed, you'll need to submit a Cigna Vision claim form with an itemized receipt. You can find the claim form on myCigna.com® on the "Forms Center" page. The whole amount may not be covered. You're responsible for paying any charges not covered under your plan.
