

A healthy choice for your mouth, body — and wallet.

Managed care makes comprehensive oral care affordable

Taking care of teeth can be costly — but it's an essential investment in your overall well-being. Poor oral health is linked to serious conditions like diabetes, heart disease, and even stroke.¹ So it helps to have a dental plan with coverage that's both comprehensive and affordable. The Managed Care/DHMO Plan² not only pays for preventive care that can keep you and your family healthy, but it also helps pay for more extensive, costly, and often unexpected expenses, from fillings to crowns and root canals. And copays are the same for both specialists and general dentists,³ making it easier to plan and budget for dental care, no matter what types of procedures you and your family need.

Who is it for?

- Anyone who wants to save on quality dental care
- Those who want regular preventive services to help promote oral and overall health
- People who want more affordable access to a comprehensive range of dental treatments and procedures

What does it cover?

- The Managed Care/DHMO Plan covers hundreds of dental procedures, saving you money on preventive, basic, and major treatments such as:
 - Exams, cleanings, and fluoride
 - Fillings and crowns
 - Root canals and extractions
 - Bridges, dentures, implants,³ and more

Why should I consider it?

- No ID cards needed or claims to submit
- No waiting periods for major services
- No annual maximums or deductibles
- Affordable group rates with convenient payroll deduction

It's easy to find an in-network provider

Visit guardianlife.com or download the Guardian 'Find a Provider' mobile app. Select Managed Care/DHMO as your plan type.

Here's how it works

- When you enroll, you select a primary care dentist from the Dental DHMO network.
- Every time you visit your primary dentist, you'll save on care with set copays for each type of service, making it easy to budget and plan for treatments.
- Family members can choose their own primary care dentist.
- There are no claims to submit, and everyone can start saving immediately on care, with no deductibles or annual maximums.
